

RXP05 Plug-in socket repeater

The RXP05 plug-in socket repeater receives all radio telegrams from Easywave transmitters and retransmits them after a delay of approx. 0.3 seconds.

A maximum of three repeaters can be used simultaneously in a radio system in order to almost triple the range of an Easywave radio transmitter. The cascading function of the repeater prevents interference and system build-up

The mains output is not switched and therefore remains fully usable.

RXP05E50A01-K

Technical specifications

Coding	Easywave Up to 32 transmitters can be programmed.
Frequency	868.30 MHz
Transmission delay	270 ms
Range	typically 150 m in good free-field conditions
Power supply	230 V AC, 50 Hz
Power consumption	0.5 W standby
Outputs	protective contact (D/A/NL/S/N)
Maximum contact load	mains voltage (not switchable): 16 A / 230 VAC
Operating temperature	-20 °C to +35 °C
Dimensions	71,4 x 71,4 x 75,5 mm
Color	white similar to RAL 9003

Plug system

D/A/NL/S/N

Scope of delivery

- Plug-in socket repeater
- Operating manual

Models
